## OVERVIEW

Landmark House Barbados is located on the Sandy Lane estate and is set within spacious private tropical gardens and has a path at the end of the garden which leads directly to the beautiful white sandy beach on the West Coast of Barbados.

To compliment the traditional coral-stone architecture of Landmark House Sandy Lane, its open plan interior design brings outdoor living inside, with the pleasant sea breezes distributed by colonial-style overhead fans.

From the living area at Landmark House Barbados, as you sit on the comfortable sofas you can see the turquoise waters of the Caribbean through the lush foliage. This 4 bedroom luxury villa is located at the northern end of the exclusive Sandy Lane Beach, which is popular for its excellent swimming and view of the bay.

In the gardens of Landmark House Barbados is a separate dining pagoda, such a lovely spot to dine followed by a night-cap of the famous Bajan rum served by the butler who has been with the Landmark House for many years and will ensure your stay is a relaxing and hassle-free.

Landmark House Barbados offers four air-conditioned bedrooms with en-suite bathrooms and sea views, three are located on the ground floor level and the 4th bedroom is on the first floor. Keeping with the theme of bringing the outdoors in, some of the bedrooms have an indoor/outdoor shower too.

There are 3 bedrooms on the ground floor and 1 bedroom upstairs.
